Meeting points at the congress: contacts & customer acquisition

Meeting Point

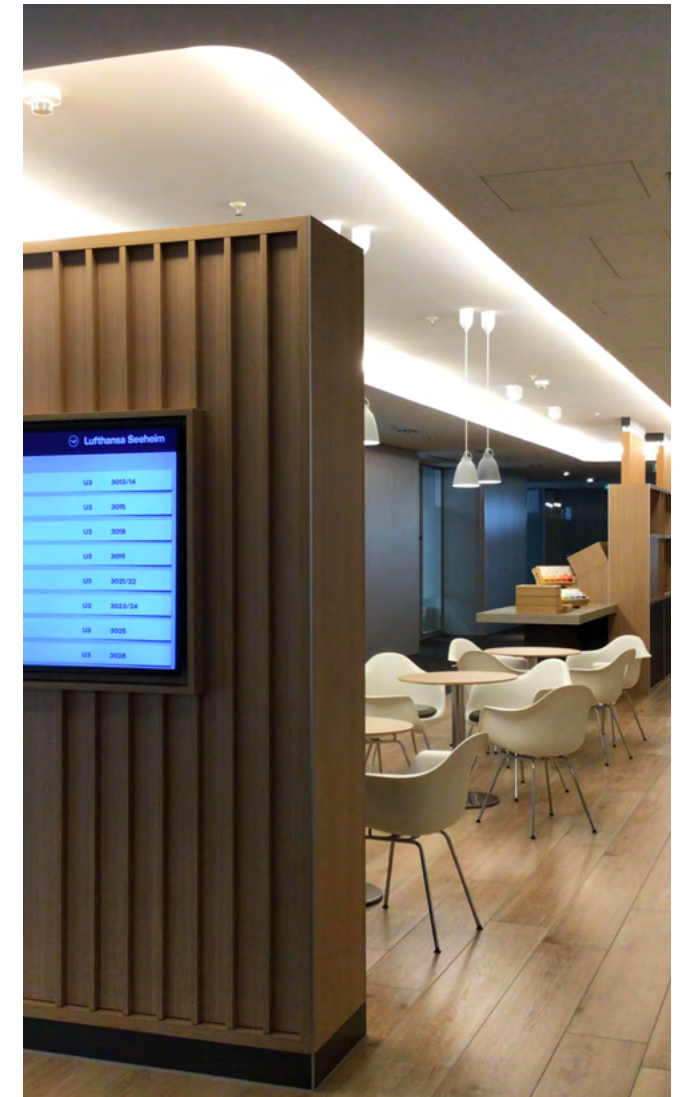

SP32

Our streams, which include up to 60 presentations in front of a smaller audience, take place in the basement of the Lufthansa Conference Center. There is a lot of through traffic here, which you can take advantage of: We provide three meeting points in the corridors – these are smaller information stands where interested parties can be „intercepted“.

Your advantages:

- Less competition and more exclusivity, as we allocate a maximum of three stand spaces.
- You will always find an audience in the basement: before, after or between the specialist presentations, visitors can get a coffee at the High Noon Coffeebar, linger for a chat or use the tables with power sockets to work. So there is always something going on here, but there is less hustle and bustle than at the Expo.
- Seize the opportunity to show your presence away from the exhibition stands and meet your target group a second time!
